CA Promise

The California Promise program is for California Resident students that are First-time Freshman and are interested in finishing their bachelor's degree in four years or Associate Degree for Transfer (ADT) students that wish to complete their degree in two years. Degree programs and campus participation information can be found on the [CA Promise site](#)

Are you interested in participating in the CA Promise?

Yes No

How did you Hear About Us?

How did you hear about CalState.edu/apply?

The "CA Promise" is only for California residents. Colorado residents should answer "No".

Financial and Parental Information

If you cannot answer yes to any of these questions you would be considered a dependent student.

How do you classify yourself?

Dependent

If your current or parent/step parent is registered with the California Secretary of State as a domestic partner, the parent's/step parent's household must include the partner and the conditional dependents, and the partner's income must be included along with your parent's/step parent's income.

For additional information on who should be reported in your parent's/step parent's household and income that should be reported [click here](#).

- Total size of parent/step-parent household in 2017. Be sure to include yourself, parents, and other household members.
- Parental adjusted gross income (AGI) for 2017. This is the income reported on your parent's/step parent's federal tax return.
- Parental unearned income and benefits for 2017. This is income not reported on your parent's/step parent's federal tax return.

Campus Housing

Are you interested in on-campus housing should space be available? Note: housing availability is subject to your submission of a separate campus housing application and availability.

Yes No

The "Dependent" questions will ask your parents' income and benefits for 2017.

If necessary, add another high school you attended.

Click on "Include Summer" box to include courses taken before the grade level.

You must select the academic year for each grade:

9th grade: 2015-2016

10th grade: 2016-2017

11th grade: 2017-2018

12th grade: 2018-2019

Begin with selecting the earliest grade level that you completed courses to fulfill an A-G subject.

- If you completed courses in 7th or 8th grade to fulfill A-G subject requirements, please select the appropriate grade level, along with your first high school attended in 9th grade and your 9th grade academic year.
- Select the School that you attended for that grade level.
- Select the appropriate Academic Year.
- Click the green check mark to continue.

Click on the green checkmark to add and save the course.

Course types are None, Advanced Placement (AP), College, International Baccalaureate (IB), or Honors. **Weighted courses** without a AP, IB, or Honors name in the title, such as Pre-IB, Advanced Physics, or Latin 4, **should be selected as "Honors"**.

College course type refers to college credit classes, not college prep classes taken in high school.

7th and 8th Grade Coursework

If you took Mathematics or a Language Other Than English (LOTE) in the 7th or 8th grade, report it under the appropriate year. You may not count English (LA) classes taken in middle school. Use your 9th grade high school name and your 9th grade academic year (see previous page's tips).

The coursework **must** be entered into the application to receive consideration; it will not be assumed. Cal Poly will only consider math and LOTE middle school courses.

High School Coursework

You must enter high school coursework to verify completion of A-G subject requirements and to allow for an accurate GPA calculation. Enter only approved college-preparatory coursework that is used to fulfill A-G subject requirements.

A-G requirements are a sequence of high school courses that represent the basic level of academic preparation for post-secondary education. Each subject requires a certain number of years of study and a passing grade of C or better. (Any courses that your report for which you have received a D or an F grade will not be included in your Total Years calculation. These courses will still be included in your calculated GPA.)

California high school students may view the college preparatory courses offered at their high school by visiting the [University of California Course Management Portal](#).

NOTE: College courses taken concurrently while in High School are not included in the Transcript Entry System. Do not enter college courses on this page. Be sure to visit the A-G Matching screen to enter college courses for your GPA calculation and subject area counts.

It is important to list **all of your classes that can be included in the A-G course descriptions**. These are totaled and counted as a statistic for your admissions consideration.

If you make changes to your coursework, remember to update this section also.

These courses will be included in your calculated GPA:

Listed below are the A-G subject totals based on the courses you reported in the **High School Coursework** section of the application. The **Subject** column displays the requirement, and the **Years** column displays the number of years you have fulfilled (years are calculated according to your high school's academic term, such as semester, trimester, etc.) Any courses in which you earned a D or F are not factored into the calculated total years, but they are factored into your calculated GPA. Accept or update this information; it will be used by the campus to make an initial admissions decision, so ensure you are as accurate as possible. If you have any questions about requirement matching, contact your high school counselor or the campus to which you are applying.

Cal Poly San Luis Obispo has more competitive characteristics of their applicants than the other Cal State campuses. Remember, the CSU requirements must be met to be considered for acceptance. You must show **2 years of algebra and 1 year of geometry** to meet requirements (can be satisfied with middle school coursework).

COURSE	CSU SEMESTERS REQUIRED	CAL POLY SEMESTERS DESIRED
B: English	8	10
C: Algebra	4	4
C: Geometry	2	2
C: Advanced Math	0	4
E: Language Other than English	4	8

1. Educational Opportunity Program (EOP)

The Educational Opportunity Program (EOP) is designed to improve access and retention of historically low-income and educationally disadvantaged students. EOP students have the potential and demonstrated motivation to perform satisfactorily at a CSU, but they have not been able to realize their latent potential because of their economic or educational background. The program provides academic and academic assistance to EOP-eligible undergraduate students. In many cases, the program offers financial assistance to eligible students. Campuses tailor their programs to accommodate the needs of their student population.

To determine if the CSU that you are interested in applying to is accepting EOP applicants and the deadline, please review the [EOP Admissions site](#).

Applicants may complete and submit their Cal State Apply application and then later return to complete the EOP portion of the application. EOP Applications must be submitted in full (including recommendations) by:

- For applicants applying to a Fall Term (January 15th unless otherwise noted on the [EOP Admissions site](#))
- For applicants applying to a Spring Term (August 1st) (the same as the application deadline)
- For applicants apply to a Winter Term (June 30th) (the same as the application deadline)
